

My two-year-old has been attending Faith Academy for about six months now. We switched to this school because it was faith based and we never really felt comfortable with our first Weatherford daycare.

Ms. Tamara and her team are doing more than operating a Christian option for a daycare. They do things with excellence. My daughter does crafts all the time and science projects! Ms. Tamara sends my wife and me random photos of our daughter via text. Via email, we get weekly the colorful "Informer" newsletter letting us know all the things they will be covering, bible study activities, birthdays, etc. We love this!

Yet still, Faith Academy is more than these things. They even organize regular community service projects. They are doing God's work for sure! We are so very blessed to have discovered this awesome place and people to nurture my daughter and reinforce shared convictions.

While we enjoy the low kiddo-to-mentor ratio, it would not be right for us to keep this gem a secret. My family proudly endorses Faith Academy ministry!

Emma's Daddy,
