

Faith Academy Programming Announces:

Foundations in Music Coming in February

There are many benefits to having children participate in music awareness at an early age.

- 1. It improves academic skills**
- 2. It develops physical skills**
- 3. Cultivates social skills**
- 4. Refines discipline and patience**
- 5. Boosts self-esteem**
- 6. Introduces children to other cultures**

Natural Foundations in Music is an early childhood music curriculum for infants through early elementary-aged children.

Using a combination of primarily classical and traditional folk music, NFM empowers teachers and parents to nurture the ability in their children to listen, analyze, sing, move, and play —creating a musical foundation that encourages a natural transition to the study of instrumental music, vocal music, and/or dance. Even if your goal is not for your child to pursue the arts, the balance of structure and play is a wonderful way to engage with your child and help them develop a true appreciation for the beauty of music. Music Class will be on Fridays from 10:14-11:30 at the school.
